updated 2022-03-31

🎓 Education

B.A., Mathematics

School of Mathematical Sciences, Peking University.

Beijing, China

2017.9-2021.6

PhD Candidate, Applied Mathematics/Mathematics

SCMS, Fudan University. (Expected 2024)

Shanghai, China

2021.9-Now

⚙️ Skills

Programming

Language

Extra

Python, C/C++, SQL, \LaTeX 2_ε, MATLAB

Chinese(native), English(CET-6:560)

Linux/UNIX, ML&Algorithm, Math

💎 Awards

- 2017.10 *Secondary scholarship in Peking University, CNY 20000 (Rank 10% & Lasts 4 years)*
- 2018.10 *Learning scholarship of Peking University, CNY 5000 (Rank 20-50% & GPA:350)*
- 2018-2020 *Attendances in national college undergraduate mathematical contest in modeling (CUMCM)*

📄 OtherInfo

I am interested in data science and algorithm. In college I majored in mathematics but meanwhile I took some time to learn algorithm theory and programming then finished several classes and projects like data structure or program design. And I feel eager about learning new things, equipping myself with more skills. Being good at sports, I have a healthy strong body so that I could bear pressure and hard work. Contact me by the email or WeChat above for more thing.
